

AD BREAK BY A CAR.

Leaves the Rail on Water Street and Plays Smash.

Thick Telephone Pole Broken at the Base and Wires Tangled—Harvey McClure Got a Bump.

This forenoon Condit Car No. 1, on the electric railway line, got into a bad tangle on North Water street near Central Park. Motorman Shuck was in charge and Harvey McClure, the companion, was the only passenger. The car was going at a rapid rate of speed, with three points on. Nearly all the cars then traveling light on going over that stretch of track from South Park street bound considerably and No. 1 was making something of a racket in doing the jumping act. Suddenly the car with the power just turned off turned sharply at an angle eastward and ran with great force against the stone curbing and a big telephone pole on the corner. The shock was so great that the pole, nearly 24 inches in diameter, was broken in two 20 inches above the ground, the upper part being left dangling in the air, held by the mass of wires above. Shuck jumped for his life, not having time to apply the brake, and he escaped unhurt. McClure was jammed up against the wooden protection for the stove, but was not injured. He received a bruise on his left shoulder. The breakage of the pole played havoc with the Citizens' Mutual Telephone wires, tearing all but five out of place on the west side of the street. The wire falling on the railway conducting wire fired the awning in front of Ante's store. Water saved the awning and the live wire was cut. All of the guy lines along the street got a jerk. The one attached to the top of the store occupied by Walter Hutchins got such a jerk that a lot of bricks fell to the pavement. Two men in front of the store narrowly escaped injury. One jumped into the street.

All of the cars stopped running for nearly an hour. The car was off the rails for several lengths before it shot off to the curb. Shuck states that he did not know that the car was off the rails until a moment before it made the quick turn, and then it was too late to avert the damage. He claims that the car was not going more rapidly than usual, and it appears that a stone close to one of the rails caused the wheels to leave the track. Hereafter the motormen will travel more slowly along Water street.

WOMEN IN POLITICS.

Reports From 51 Counties in the State on the Situation.

In the Chicago Tribune to-day appears an article over two columns in length giving the present situation as to what the Republican ladies are doing to awaken interest in getting out the vote at the November election. This report from Macon county is printed:

Decatur—Mrs. K. Harwood, of Decatur, a few days ago received notice of her appointment as chairman of the Seventeenth Congressional District on the Republican side of the house, and she is actively at work appointing county chairwomen for each of the five counties. Mrs. George D. Haworth will have charge of Macon county and Mrs. Laura B. Evans of Christian Township. Appointments will be made at once, and the agitation to get the women interested will be carried promptly into every home. There are 300 members of the Decatur Women's club, of which both Mrs. Harwood and Mrs. Haworth are members. The ladies of this organization are nearly all Republicans and they will come out and vote, as will also the ladies of the Woman's Relief Corps. The management will endeavor to get Mrs. Haworth or some other lady to come here and address a mass-meeting of all voters. The women turn out better than ever at all rallies since they have learned they can vote at the coming election for University Trustees.

The reports show that the ladies are being thoroughly aroused and that all are enthusiastic.

"There is a cry that men are out of employment. If there are any such men in this town THEY ARE NOT HONEST, and do not want work." [Democratic campaign speaker at the Springer meeting, at tabernacle, Decatur, Oct. 5th.]

FOUND IN A HOLLOW TREE.

Treasure Placed There Because the Eccentric Owner was Afraid of Banks.

SHELBYVILLE, Ill., Oct. 7.—Anderson Ferguson, and old resident of Ashgrove township, whose dead body was recently found in a field near his home, was a singular character. He had no confidence in banks, and any money he chance to have was stowed away in any out of the way place. An inventory of personal effects after his death failed to show a considerable sum in cash known to have been in his possession. Search was made without avail, and the search was abandoned. A day or two ago Mrs. Ferguson chanced to see a hollow log a short distance from the house. A conviction seized her that she would there find the long-looked-for treasure. A fruit jar was brought forth containing \$1,020 wrapped in an old newspaper.

MAJ. JAMES A. CONNOLLY, Republican nominee for congress, at the Tabernacle to-night.

Acknowledgment.
Mrs. McIntosh, who lately removed to Indianapolis, is a noble lady personally known to all W. R. C. women and others engaged in charitable work. Her friends have remembered her in her affliction, and this letter, which will be read at the next meeting of Dunham Relief Corps has been received:

INDIANAPOLIS, IND., Oct. 1, 1894.
To the Ladies of Dunham Relief Corps
No. 4:

DEAR FRIENDS: Mrs. L. Holmes McIntosh received your kind remembrance and sends greeting, saying: "While the physical frame is gradually wasting away I find that the heart is just as capable of loving as when in health and vigor. While I have no hope of returning to you, I do have a buoyant hope of meeting you all at the great and final reunion in our Father's Home above. Read Phil. ii, 1-15."

Damaging Fire at Maroa.

At about three a.m. Sunday fire was discovered in the barn of Warner Alsop of Maroa which was entirely destroyed, together with one horse and a surrey. The barn of C. F. Emery and that of Mr. Harry Kepler were also burned. Loss about \$1,000 with about \$400 insurance. The water works and good fire department was all that saved the town from a destructive fire.

Bartholomew

wants your attention. It will pay you to give it at the great fire sale, beginning October 8th. Goods will be marked at prices that will appear absurd; for instance, silver plated salts and peppers at 15c each, tea spoons six for 10c, table spoons three for 10c and a great many other things equally as cheap.

Burnt Out.

The Citizens' Mutual Telephone people and patrons are having trouble today, caused by the burning out of the wires in the exchange for all subscribers south of East Main street. The management will have the disabled instruments in working order as soon as possible. The accident was caused by a guy wire falling on a trolley wire.

This afternoon W. F. Kauan and W. F. Calhoun left for Madison to attend a Republican rally. Mr. Calhoun will be one of the speakers.

REPUBLICAN MEETINGS.

MAJOR J. A. CONNOLLY NEXT WEEK.

He Will Speak at Decatur, Maroa, Macon, Mt. Zion and Blue Mound.

The Macon county Republican central committee have arranged meetings as follows for Major J. A. Connolly, Republican nominee for Congress in the Sov-

eteenth district:

DECATUR—At Tabernacle, Monday evening, October 8.

MAROA—Tuesday evening, Oct. 9.

MACON—Wednesday evening, Oct. 10.

MT. ZION—Thursday evening Oct. 11.

BLUE MOUND—Friday evening, Oct. 12.

The voters of all parties, including the ladies, are urged to turn out and hear Major Connolly discuss the political issues of the day from a business stand-

point.

Other Meetings.

In addition to the above appointments for Major Connolly, the local committee has secured the following speakers on the dates named:

Wednesday evening, Oct. 10—Clement J. Belinski, a Polish lawyer of Chicago, will address the voters in tent in the Fifth Ward.

Monday evening, Oct. 15—Hon. F. X. Schoenmaker, of New Jersey, at the Tabernacle.

Monday evening, Oct. 22—Col. A. G. Matthews of Pittsfield and Hon. J. E. Sharrock, at the Tabernacle.

Monday evening, Oct. 29—Hon. W. G. Cochran, of M. Cullon and Hon. W. G. Cochran, at the Tabernacle.

"There is a cry that men are out of employment. If there are any such men in this town THEY ARE NOT HONEST, and do not want work." Democratic campaign speaker at the Springer meeting, at tabernacle, Decatur, Oct. 5th.

A GREAT FEAT.

From Chicago to New York on a Bicycle in Less Than a Week.

Geo. W. Wolf, of Chicago, arrived in New York Sunday and dismounted in front of the city hall, having wheeled all the way from Chicago, breaking the record between that city and New York by one hour and 30 minutes. His time was 6 days, 9 hours and 30 minutes. Allowing for the difference in time the bicyclist really only occupied 6 days, 8 hours and 30 minutes. During that time he had only 11½ hours sleep.

But Mr. Springer assumes that wage earners will be better employed under the present tariff than when the country was prosperous. Hold on one moment. Mr. Springer voted to lower tariffs to import goods from Europe that our own people have been making for this market and which they ought to be making now. Under such a policy our people cannot be employed at good wages as they were in 1892. If they are so employed, then Mr. Springer's tariff theory to open our gates to foreign goods is a fraud and will bankrupt the government. Mr. Springer knew and still knows the present tariff bill will make and keep idle hundreds of thousands of our people, and will give employment to cheap labor in Europe, and that is the reason the English plutocrats are feasting Mr. Wilson in London. Should any workingman vote for a man for congress who will deliberately vote in congress to cripple American labor and American industries?

"THERE is a cry that men are out of employment. If there are any such men in this town THEY ARE NOT HONEST, and do not want work."—Democratic campaign speaker at the Springer meeting, at tabernacle, Decatur, Oct. 5th.

THE Democratic orator at the tabernacle, who said that a man who had no work now was idle because he was dishonest, probably did not mean the men would steal. What he meant was what every free trader thinks, but which so few are willing to admit in a public audience when they are trying to get laboring men vote against their own interest, namely, that a man who has labor to sell can sell it if he offers it cheap enough, and that he is not honest with those dependent upon him for support if he don't sell his labor at what he can get for it. Every free-trader means to reduce the price of labor.

Springer's Speech.

December 31, 1892, the trade review of the country reported that the most prosperous year ever known in this country had just closed. December 31, 1893, the same non-partisan papers said the worst business year the country had suffered in 50 years had just closed.

The year 1892 was the last year of the Harrison administration. The year 1893 was the first year of the present administration.

Mr. Springer in his speech, in Decatur, said that five weeks after the present tariff came into effect business is reviving; that at Homestead where workmen under the McKinley law were shot down the men were now hurrying into the mills to work; that in an interview published last Sunday in the *Review* Mr. Peddecock, Mr. Burrows and Mr. Tait said business was better than it was and the future is bright, and also, that the *Commercial Advertiser* of New York tells of the revival of business. Now listen. If Mr. Springer had intended to be fair he would have made the fact clear that all references made to the revival of business is in comparison with the deplorable condition of the country, suffered as the result of the return of the Democratic party to power, when business was depressed to the extent of twenty billions of dollars in 1893 when compared with the business of 1892. But he says business has revived since the passage of the tariff bill. This is true; but it speaks nothing for the tariff bill. If Mr. Springer were statesman enough to admit in his speech what he admitted more than once in congress in voting for resolutions which admitted that the prostration of business was due to the uncertainty created as to what the new tariff bill would provide for if passed at all, he might pose as a teacher. The tariff bill has not revived business, but the removal of the uncertainty, which Springer and his colleagues hung like a pall over the country by fooling with the tariff, and threatening to change the conditions on which former business was done, has. He forgot also to state that the new tariff bill has reduced wages and the "hurrying workmen at Homestead," that he referred to, are hurrying to their work at a reduction of 30 per cent in their wages below what they were when "the Pinkertons were shooting them down," as Mr. Springer puts it. Mr. Springer forgets too that when "the Pinkertons were shooting down men at Homestead" he was a calamity howler and since the wages of these men have been reduced 30 per cent he has become a prosperity shouter. Should such men be sent to Congress? If the country wants dema-

gogues, yes. If they want statesmen no.

Mr. Springer declared he could not say that wages had been raised in Decatur, but he could say the wage earner could get more for his money and that the Democratic party had been waging a war for thirty years to bring this about. Mr. Springer knew, but he did not have the courage to state, that when he was howling calamity in 1892 every wage earner in Decatur was employed at good wages, and that last winter, as the result of the return of his party to power, that not only in Decatur, but in every city in the north, thousands of honest but idle workmen were fed at public soup houses. He did not state that hundreds of these men in Decatur are out of employment and have no money to buy goods, no matter how cheap they may be. Some of them have been prosperous, heretofore, and had bought homes upon which they had paid considerable money, but since the Democrats came into power they have been unable to keep up these payments and are in danger of losing their homes. Assuming that Mr. Springer's statement that goods are cheaper is true, would it not be infinitely better for the workman who is idle to be employed even if he pays more for goods, and would it not be better for the employer as well?

But Mr. Springer assumes that wage earners will be better employed under the present tariff than when the country was prosperous. Hold on one moment. Mr. Springer voted to lower tariffs to import goods from Europe that our own people have been making for this market and which they ought to be making now. Under such a policy our people cannot be employed at good wages as they were in 1892. If they are so employed, then Mr. Springer's tariff theory to open our gates to foreign goods is a fraud and will bankrupt the government. Mr. Springer knew and still knows the present tariff bill will make and keep idle hundreds of thousands of our people, and will give employment to cheap labor in Europe, and that is the reason the English plutocrats are feasting Mr. Wilson in London. Should any workingman vote for a man for congress who will deliberately vote in congress to cripple American labor and American industries?

Mr. Springer says he told a REPUBLICAN reporter at his Dougherty Hall meeting he would give him a dollar a line to print the following statement: "During the entire history of this country there never was a more favorable season for visiting the markets. Do you see what that means? Under a Democratic tariff there never was a better time to buy." Now as to Springer's statement about paying a dollar a line it is only fair to say that it is on a par with his reckless assertions as to the tariff. No man who refused, as Mr. Springer did, to pay the government an income tax would be at all likely to squander a dollar a line on a speech as full of worm holes as his. As to this being the best time the country ever saw to buy because everything is cheap, that was fully answered by the remark of a Democrat who will not vote that ticket this year, who heard Mr. Springer at the tabernacle. Said he, "Mr. Springer said a great deal about cheap goods but not one word as to how the man is to get the dollar to buy them with. As for myself I prefer to be able to get the dollar and manage its expenditure myself, rather than have the fellow with the cheap goods fix my condition. I can save more of the dollar for myself than he can." He might have added that if Mr. Springer is correct in his statement that "there never was a better time to buy" there has not been a time in thirty years when labor, the only thing a working man has to sell, was as hard to sell. Workingmen, if you have any concern for the comfort of your wife and children don't vote for Mr. Springer, who votes in congress to give the work of American workingmen to the workmen of Europe and then comes round and tells you that makes goods cheaper for you.

Fine Carpets.

The hardest thing we have to contend with is the fact that some people think because we do a large business at Popular Prices that we bend our efforts to selling medium and low cost goods only. Will you never wake up to the fact that we have room enough, capital enough and taste enough to sell the finer grades as well?

We confidently assert that no house outside of Chicago begins to show the assortment of High Grade Carpets, Wiltons, Axminster, Moquettes, Velvets and Brussels as ourselves and for immediate delivery. No waiting with bare floors, two, three or four weeks for "goods to arrive."

The same can be said of our Rug and Drapery stock. Endless variety of Lace and Chenille Curtains.

ETIQUETTE FOR GIRLS.
ALWAYS rise for an older person. In entering a room the gentleman always follows the young lady. The young lady always seats herself first before any gentleman will do so. In making introductions the young man is always presented to the girl, never the other way round.

IT is a lady's place to recognize a gentleman first, as it depends on her whether the acquaintance can't be had.

NEVER introduce any young man to your girl friends without first asking their permission, and then say: "Miss D. I want to present (or introduce) Mr. A. to you."

It is sufficient to acknowledge an introduction by a simple bow, unless there is some special reason for more cordial forms. Handshaking is not good form in an introduction in a ballroom.

HINTS TO HOUSEKEEPERS.

TO REMOVE odors from a sick room, it is a good plan to sprinkle coarse ground coffee on a shovelful of burning coals, and thrust it into all the corners of the room.

HARD putty may be easily softened by passing a red-hot flat piece of iron over it, so that it can then be removed with the fingers or the edge of a knife, without any difficulty.

CAKE needs to rise to its full height before browning, especially sponge cake. The lightness of this cake depends, first on thorough beating, second on baking just right.

TRY.

In the water for purple and blue calicoes, soda added.

PURIFYING jars from grease, by soaking in strong soda water.

For washing ceilings blackened by a kerosene lamp, soda water.

In the rinsing water for pink or green calicoes, vinegar added.

Fine Carpets.

The hardest thing we have to contend with is the fact that some people think because we do a large business at Popular Prices that we bend our efforts to selling medium and low cost goods only. Will you never wake up to the fact that we have room enough, capital enough and taste enough to sell the finer grades as well?

We confidently assert that no house outside of Chicago begins to show the assortment of High Grade Carpets, Wilton, Axminster, Moquettes, Velvets and Brussels as ourselves and for immediate delivery. No waiting with bare floors, two, three or four weeks for "goods to arrive."

The same can be said of our Rug and Drapery stock. Endless variety of Lace and Chenille Curtains.

ETIQUETTE FOR GIRLS.

ALWAYS rise for an older person. In entering a room the gentleman always follows the young lady.

The young lady always seats herself first before any gentleman will do.

In making introductions the young man is always presented to the girl, never the other way round.

It is a lady's place to recognize a gentleman first, as it depends on her whether the acquaintance continues or not.

Never introduce any young man to your girl friends without first asking their permission, and then say: "Miss D., I want to present (or introduce) Mr. A. to you."

It is sufficient to acknowledge an introduction by a simple bow, unless there is some special reason for more cordial forms. Handshaking is not good form in an introduction in a ballroom.

HINTS TO HOUSEKEEPERS.

To remove odors from a sick room, it is a good plan to sprinkle coarse ground coffee on a shovelful of burning coals, and thrust it into all the corners of the room.

Hard putty may be easily softened by passing a red-hot flat piece of iron over it, so that it can then be removed with the fingers or the edge of a knife, without any difficulty.

Cake needs to rise to its full height before browning, especially sponge cake. The lightness of this cake depends, first on thorough beating, second on baking just right.

TRY.

In the water for purple and blue calicoes, soda added.

Purifying jars from grease, by soaking in strong soda water.

For washing ceilings blackened by a kerosene lamp, soda water.

In the rinsing water for pink or green calicoes, vinegar added.

Washing an oilcloth with a flannel and warm water, wiping dry, and rubbing a little skim milk over—Good Housekeeping.

ANDREW G. CURTIN,

The Stanch Old War Governor of Pennsylvania,

AFTER A LONG AND USEFUL CAREER,

In Which He Served His State and Country Faithfully and Well, Passes Peacefully Into the Great Beyond.

BELLEFONTE, Pa., Oct. 6.—Andrew Gregg Curtin, the old war governor of Pennsylvania, died this morning at 5 o'clock. His death was not only painless but calm, the last vital spark going out after a sleep of twelve hours—a peaceful ending to the long, useful and eventful career of this great and distinguished man. There was no harrowing scenes to break the mystic shadow of sorrow and gloom overhanging the household.

His friends knew yesterday that it was only a question of hours, and nervously themselves to be resigned to the inevitable. His wonderful vitality, however, prolonged to final dissolution until 5 o'clock this morning, when he breathed his last, surrounded only by the immediate members of his family, consisting of his aged wife, Mrs. Katherine Wilson Curtin; his daughters, Mary E., wife of Dr. George F. Harris; Marcia L., widow of Capt. R. R. Breeze, and Kate W., wife of M. D. Burnet, of Syracuse, N. Y., and his son, W. W. Curtin, of Philadelphia.

The direct cause of the governor's death was a general breaking down of his nervous system. The funeral has been set for Wednesday afternoon at 2 o'clock, the interment to be made in the Union cemetery in this place. The final arrangements for the obsequies have not yet been completed and probably will not be until late to-morrow.

Andrew Gregg Curtin was born at Bellefonte, on April 29, 1817. His father, Roland Curtin, who came from Ireland and who built one of the first iron foundries in Pennsylvania, married the daughter of Andrew Gregg, who had been a United States senator, congressman and secretary of state.

Young Curtin began his school life in private institutions in Bellefonte and after a term of school at Harrisburg he ended his academic education at Milton. Curtin began the study of law in Bellefonte with William W. Potter, who was afterwards a congressman, and finished with Judge Reed, then one of the great attorneys of the state.

After graduating from the law department of Dickinson college at Carlisle, he was admitted to the bar in his native place and began practicing in 1837. He at once took a leading position in his profession. At the age of 25 years he made a state reputation as an orator in the campaign of "Tippecanoe and Tyler too." He was an ardent whig, and in 1844 made a canvass of the state for Henry Clay.

In 1848 he was a presidential elector and his efforts in behalf of Gen. Taylor were everywhere recognized as contributing to his election. In 1852 he was again upon the electoral ticket and in the forefront of the battle for the whig party. In 1854 his party desired him to become its candidate for governor. He declined but gave his best efforts to the election of his personal friend, Mr. P. L. Koch, who, after his success, appointed him secretary of state.

From 1854 to 1860, when the republican party was springing into life as a result of the agitation of the slavery question, Mr. Curtin took a leading position in the stirring events which attended the birth of the new party, and in 1860 was made its candidate for governor.

The election of Lincoln depended upon the two doubtful states, Pennsylvania and Indiana. Both of them held their state elections in the October preceding the November election, and it was essential nationally that these states should declare for the republican candidates to insure his election.

Simon Cameron, David Wilmot, Andrew G. Curtin, Col. A. K. McClure and Thaddeus Stevens were in the Pennsylvania delegation, and Curtin's efforts helped largely in the nomination of Lincoln. The friendship between the martyred president and the great war governor of the Keystone state was of the warmest character from that time Curtin was elected governor by a good majority, and was re-elected for a second term, serving during the entire war.

It followed close upon his first inauguration as chief executive of the state, that the first gun of the civil war was fired, and he sprang to the duty of raising troops for the general government, with an energy and spirit unequalled by any other state executive. He encouraged enlistments in every possible way, and in an eloquent war speech just after the fall of Sumter he kindled camp fires upon almost every heart in Pennsylvania and called more men into service than was asked for by the general government.

It was the aspiration of Gov. Curtin's friends that he should be made United States senator at the end of his second term, but influences which had been called for by the general government.

In 1868 he was a prominent candidate for nomination for vice-president with Gen. Grant, but was defeated. Soon after the latter's election Gov. Curtin was nominated and confirmed as minister to Russia and spent nearly four years at St. Petersburg. He returned home in 1873 and took part in the liberal republican movement which nominated Horace Greeley. He was prominently spoken of for the second place on that ticket and was the choice of the Pennsylvania delegation in the Greeley convention for president. Through his connection with the liberal republican movement he was carried into the democratic party.

He was chosen by the democrats to represent Pennsylvania in the

district in the forty-seventh, forty-eighth and forty-ninth sessions of congress, serving from 1881 to 1887. For many years he was chairman of the foreign affairs committee.

In recent years he had been living a retired life in Bellefonte, where he was a conspicuous figure and where his home was pointed out as one of the most interesting features of that locality.

He married Miss Catherine Wilson, and their four daughters and a son are still living. The ex-governor was supposed to be one of the wealthiest men in Bellefonte.

TO PROTECT THEIR CITIZENS.

The Powers Will Increase Their Guards at the Treaty Ports of China.

LONDON, Oct. 7.—It can be stated on authority that the developments of the past week in eastern affairs will lead to concerted action on the part of the European powers. On Monday last Mr. N. B. O'Connor, the British minister at Peking, warned the foreign office by cable that the condition of affairs in China was such that the government was not able to guarantee protection to the foreign residents at the treaty ports and the missionaries in the interior of the country. The minister in the same dispatch stated that the Chinese imperial council was disorganized and that the collapse of the government was not looked upon as an impossibility, and advised that instant action be taken for the protection of the lives and property of British subjects in China.

The substance of this dispatch was at once communicated by Lord Roseberry to the governments of France, Russia and Germany, with the suggestion that the powers co-operate in increasing the guard at the treaty ports and in measures for the protection of the missionaries.

When the cabinet met on Thursday friendly responses from all three of the powers named had been received, and these so thoroughly cleared up the situation as to enable the ministers to give the premier and the Earl of Kimberley, secretary of state for foreign affairs free hand to take whatever steps in the matter they might consider necessary. No question of intervention between Japan and China has arisen, however.

Approved by the Powers.

LONDON, Oct. 7.—It is stated that the action of the English government in ordering a squadron to proceed to China is approved by the other European powers, which will shortly adopt a similar course.

FELL FROM A BALLOON.

Another Victim of a Suicidal Craze—Beatrice Von Dresden Instantly Killed.

BUFFALO, N. Y., Oct. 7.—Beatrice Von Dresden, the young lady balloonist, made an ascension on the Franklinville fair grounds Saturday at 6 o'clock, and when over 1,500 feet from the earth, she fell from the balloon and was instantly killed.

She was a native of Buffalo. In recent years, however, her home has been in Frankfort, Ky. She has been a professional aeronaut for three years, and in that time has made twenty ascensions. She had just passed her seventeenth year.

The wind was blowing rather strongly and she was advised not to make the ascension. Her father and mother, who were present, tried to dissuade her, but she declared that she would not disappoint her hundreds of old friends, and the balloon was released from the moorings. At a height of about 1,600 feet the crowd below observed that Miss Von Dresden was preparing to make her parachute jump. She appeared at the side of the basket trying to unfasten the parachute which was attached to the balloon. In some way she lost her hold of both the balloon and the parachute and her body was whirling to the ground. The body struck within the fair grounds and was imbedded nearly a foot in the ground.

The girl was dead when the people reached her. Her father and mother were among the first to reach the body and their demonstrations were heart-rending.

THE DUTCH IN LOMBOK

Secure Important Advantages Over the Natives.

AMSTERDAM, Oct. 7.—A dispatch from the Island of Lombok says the Dutch forces have entered Mataram, the capital of the island, which was held by the rebellious Balinese. The troops, upon searching the city, found 300 barrels of smokeless powder, a large number of cartridges and a great quantity of explosives. The dispatch also says that the Dutch flag is flying over Tjaka Negara, and that several of the Balinese chiefs have surrendered.

EX-GOV. FOSTER OF OHIO

THE DEMOCRATIC

TRUMBULL'S TUMBLE

The Grand Old Man of the Sucker State

SPEAKS BEFORE A PEOPLE'S MEETING

On "The Cause and Suggestions for the Cure of Labor Troubles"—Some New and Startling Doctrines Promulgated.

CHICAGO, Oct. 8.—Under the auspices of the county central committee of the people's party, Lyman Trumbull, the Grand Old Man of America, Saturday night, in Central Music Hall, delivered an address before a large audience on "Cause and Suggestion for the Cure of Labor Troubles."

Mr. Trumbull did not make a formal declaration of having adopted the platform of the people's party, although many of the reforms he urged were in direct line with the principles laid down by that political organization. Mr. Trumbull dwelt upon the encroachments that combines, monopolies and capitalists are making upon the rights of the masses; declared that the power to vast properties should be annulled, that corporations should be succeeded by partnerships, and vigorously ridiculed and protested against the usurpation of power by federal judges.

On the subject of the concentration of wealth the speaker said, "It is chiefly the laws of property which have enabled the few to accumulate vast wealth while the masses live in poverty. For many generations laws have been framed for the protection of property rather than to protect the rights of man. The richest corporations and persons in the world are in the United States. How have they accumulated their vast fortunes? Surely not by their own industry and thrift—but by the aid of statutes regulating the rights of property. The remedy for this state of things is simple. These corporations derive all their property from the legislature, and they are completely under the control of the legislature. The formation of corporations for any purpose whatever should be prevented."

The disposition of vast estates was touched upon in this fashion: "Why should the power to dispose of property after death given by the laws be extended beyond the authority to dispose of a fixed amount to any individual, say property to the value of not over \$500,000 to the wife, of not more than \$100,000 to each child and not more than \$50,000 to other relatives?"

The silver question he would not discuss except to say that he was in favor of this country going ahead regardless of the ideas of other countries.

Referring to the encroachments of federal judges upon the constitutional rights of the people, he said those judges are exercising a jurisdiction to day which they would not have thought of exercising in the earlier days of the republic. For the supreme court of the United States he had the utmost respect, but that court made a great mistake some years ago in the Dred Scott case, when it decided that a man of African descent was not a citizen and could not bring suit for his freedom in a federal court. "But the people of the United States reversed that decision and wrote it in the law of the land—yes, a law written by this right hand—which declared that not only a man of African descent was a citizen and had the right to sue in the courts, but that any man, any person belonging to these United States was a citizen and entitled to all the rights of man."

WRECKED AND BURNED.

A Dozen Persons Injured in an Accident on the Southern Railway.

KNOXVILLE, Tenn., Oct. 8.—The Washington and Chattanooga limited express on the Southern railway was wrecked yesterday afternoon six miles west of Bristol. The entire train, composed of mail, express and baggage cars, two day coaches, two Pullman sleepers and a dining car left the track. The cars were piled one upon another and the entire mass caught fire from the range in the dining car.

The train was well filled with passengers, but all were gotten out before the flames spread to the cars. Less than a dozen were injured and none are considered fatally hurt.

Samuel Smith, of Knoxville, the engineer, fell under his engine and sustained a fracture of the leg and internal injuries, and was seriously scalped. His fireman, Holmes, was badly hurt. W. H. Patty, postal clerk, is one of the worst injured. The train was running forty-five miles an hour and left the track at a curve. It is rumored that a heavy bolt had been placed on the inside of the rail so severely that it caused the engine to leave the track. The entire train except the sleeper was burned.

SPRING VALLEY RIOTERS.

Several of Them Sentenced to the Penitentiary for Various Terms.

PRINCETON, Ill., Oct. 7.—The jury in the Spring Valley riot cases, after being out all night, returned a verdict at 11 o'clock yesterday morning. Peter Laser, mayor of Spring Valley, and Peter Klumac, an occasional police officer, were given one and a half years in the penitentiary, and Frank Barowski and Anna, his wife, were given one year each. John Gutzen, superintendent of the city water department, was found guilty of riot, for which the sentence will be fixed by the court. The verdict entirely exonerates Pinkerton and Bohen of the charge of criminal assault upon Mr. Barowski that was preferred against them in the court room at Spring Valley, and which was partly the cause of inciting the mob against them.

The Great German & English Doctors.

EYE, EAR, NOSE, THROAT, CHRONIC, NERVOUS AND CATARRHAL DISEASES.

Graduates of Berlin, Edinburg and New York City, the most notable Colleges in America and Europe.

Consultation, Examination and Opinion Given FREE in Every Case.

THEIR NEW SYSTEM.

So many thousands are already acquainted with this new mode of treatment that it is only necessary to say by this method an equilibrium of the vital powers is at once established and an equalization of the circulation maintained. Thus nature is enabled to throw off the effete matter. Medicine will act like a charm, and health at once ensue, if the case be a curable one.

Their experience in the Great Medical Schools and Hospitals of Europe and this country, together with their extensive special practice, enables them to treat the diseases they make their specialty understandingly and with phenomenal success. They do not claim to cure everything, like some physicians. Bear this in mind. Call and see for yourself. They do not practice deception. They use nothing but the latest and most improved treatment in foreign hospitals—nearly all medicines new.

The Greatest of All Gifts—The Power of Diagnosing Diseases.

They know they are the greatest diagnosticians in the world. They have a national reputation for diagnosing the most complicated diseases.

By their keen perception and intuition they are enabled to fathom the most complicated diseases and reveal to the sick the true fountain and cause of their suffering, where other physicians have failed and were groping in darkness.

By their direct understanding of each and every case, they are enabled to cure hundreds of diseases given up by the general practitioner.

CATARH.—This disease, which is generally considered incurable by the general practitioner and receives only temporary benefit from his remedies, is speedily and permanently cured by their famous Germicidal treatment. They rarely find a case they cannot cure.

Over 10,000 Cured of Nervous, Chronic, Throat and Catarrhal Diseases in Ten Years.—They treat Eye, Ear, Nose, Throat troubles, Ringing in Ears, Catarrhal deafness, Stomach, Liver, Kidney, Bladder and Female diseases, Eructations, Skin troubles, Epilepsy, Seminal Weakness, Night Losses, Nervous Exhaustion, General and Local Debility, etc. They restore Impaired Vital Energy, Invigorate the Debilitated Constitution, Stimulate the Organic Action, Promote the Circulation and Renew that Vital Energy, the loss of which is the symptom of decay.

What Is It? and How Do They Do It? are Questions Asked by Hundreds of People.—They can refer you to hundreds of persons whom they have treated and cured. If you have been humbugged or badly treated, do not wait for a more convenient season, but come at once and put their wonderful powers to the test. You will never regret it. Remember the date.

Consultation Private and FREE to All.

They will treat you honestly, and positively will not throw out any false hopes nor take your ease if they can not cure you. If your case is incurable they will frankly and honorably tell you so also cautioning you against spending money for medicines which impostors usually suggest. Changes shall be reasonable and within the reach of all.

TELEGRAPHIC NOTES.

The Interstate fair for Iowa, Dakota, Nebraska and Minnesota opened in Sioux City, Ia., Saturday.

The entire state ticket of Massachusetts was renominated by the state convention in Boston Saturday.

CLUBBED BY A POLICEMAN.

Gen. Kelly, of Industrial Army fame, in the hands of a Brutal Officer.

SAN FRANCISCO, Oct. 8.—Gen. Kelly, the leader of the Industrial army which left here last summer and went to Washington, while addressing a crowd Saturday in Oakland was ordered by Officer Scanlon to desist. Kelly refused, whereupon Scanlon took him into custody and the two marched off. They had not gone far when Scanlon suddenly began clubbing Kelly and fractured his skull. A crowd of several hundred men marched to the city hall, and demanded that Scanlon be placed under arrest. The authorities quickly granted the demand, thereby preventing probable violence. Kelly's condition is serious.

THE WOOL SCHEDULE

To be Referred to the Attorney General for Construction.

WASHINGTON, Oct. 7.—Secretary Carlisle decided yesterday afternoon to refer the question of the construction of the wool schedule of the new tariff bill to Attorney-General Olney for his opinion. The principal point turns on whether camel hair, goat hair, etc., are wool within the meaning of the wool schedule, and are therefore subject to the wool duties, which the board of general appraisers at New York have decided are to be collected at the rates imposed by the McKinley act until January 1 next.

To Overhang Suspicious Vessels—Notes.

LONDON, Oct. 7.—A dispatch from Shanghai says: The Chinese war ships stationed off the Bogue forts in the Canton river have been instructed to exercise the utmost vigilance and to overhaul any suspicious vessel that arrives in the river.

Native reports from the Corean frontier say that the Chinese have abandoned their position at Ngan and retreated upon Keichau.

There is a vague rumor that the Chinese officials contemplate totally blocking the Woo Sung bar.

The Chinese government has authorized a firm in Tien-Tsin to raise a loan of £10,000,000. The sum of £1,000,000 has already been placed privately.

Under Sailing Orders.

PARIS, Oct. 7.—The French war ships Izy, Alger, Duguay-Trouin and Lutin have been ordered to Chinese waters.

The Temps says that the naval officials at Brest have been ordered to hold the war ships Arathule, Eclaireur and Fabert in readiness to proceed to China at a moment's notice.

Offers to Mediate.

LONDON, Oct. 8.—The Central News correspondent in Rome says: "It is semi-officially announced that the Italian minister in Pekin has offered the Chinese government Italy's mediation in the questions at issue between China and Japan. The cruiser Umbria has started from Spezia for China."

WE have these famous Hanan Shoes in these and several other styles. We have them in razor toes, which are the "korrekt kibosh." Gentlemen who wish to be stylishly dressed must wear the razor toe. We have also the Natural Last, which is constructed with strict regard to the natural shape of the foot. These are especially well suited for middle-aged and elder'y gentlemen who want a thoroughly comfortable shoe. We have them in calf and kangaroo, in lace and congress.

Men who wear them once will insist upon getting them thereafter. We are the exclusive agents for the celebrated Hanan & Son's shoes and carry a large line of them. If it should ever happen that we have not the exact size and style that you want we will take pleasure in taking your measure and procuring for you a perfect fit from the factory. Come and see us when you want anything in shoes.
